## PROFESSIONAL SUMMARY

---

Performance-driven React Native and React JS Developer with over **2.6 years** of experience in building scalable, cross-platform mobile applications and responsive web interfaces. Expert in **Redux Toolkit, TypeScript, and RESTful API** integration. Proven ability to deliver production-grade applications that improve user engagement and streamline business operations.

## SKILLS

---

**Languages :** JavaScript (ES6+), TypeScript, HTML5, CSS3.

**Frameworks :** Express.js, Bootstrap, Tailwind CSS.

**Libraries :** React JS, React Native, Next.js, Redux, Node.js.

**Databases/Tools :** MongoDB, RESTful APIs, Git, Axios, Unit Testing (Jest), CI/CD Pipelines.

## PROFESSIONAL EXPERIENCE

---

**Bugtrear Technologies | React Native & React JS Developer** *November 2023 - April 2026*

- Built 5+ responsive web applications using HTML5, CSS3, and Flexbox with mobile-first media queries, ensuring consistent rendering across devices and browsers.
- Developed and shipped 3+ cross-platform mobile applications (iOS & Android) using React Native, reducing separate codebase maintenance by approximately 60%.
- Implemented Redux Toolkit for centralized state management across complex multi-screen apps, eliminating prop-drilling and improving UI consistency.
- Integrated 15+ RESTful APIs for authentication, data fetching, and payment processing, collaborating closely with backend developers to define and test API contracts.
- Accomplished higher code reliability and faster deployment cycles as measured by a 15% decrease in post-release bugs by integrating Unit Testing with Jest, performing Code Reviews, and streamlining releases through CI/CD pipelines.

## PROJECTS

---

**SmartGolf (Mobile APP) | React Native, Firebase :**

- Created a performance analysis tool for golfers to track progress and improve skills through data-driven insights.

### **KNAF (Mobile APP) | React Native, Firebase, REST APIs :**

- Architected and launched a real-time motorsport event app using React Native and Firebase Realtime Database, delivering live race schedules, results, and class-based push notifications to 500+ registered participants.
- Designed participant management module (start grids, team profiles, news feed) and centralized communication hub, reducing organizer-to-fan update lag from hours to seconds.

### **Perfect Pizza Flours (Mobile APP) | React Native, Firebase, REST APIs :**

- Built a pizza recipe app with a step-by-step wizard, progress notifications, and community sharing to guide users and boost engagement.

### **Cakinzo (REACT JS) | React JS, REST APIs :**

- Built a responsive e-commerce platform with integrated RESTful APIs for user authentication, order management, and secure payments.

### **South Safari (REACT JS) | React JS, REST APIs :**

- Built a curated travel and safari booking platform with real-time itinerary rendering, package filtering, and trip planning tools using React JS and RESTful API integration

## **CERTIFICATIONS**

---

- Completed **Front-End Development training at AIS Education Center, Madurai**, gaining hands-on experience in building responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and modern frameworks.
- Certified as a **Quick Learner** by Bugtreat Technologies (2024), recognized for the ability to quickly grasp new concepts, adapt to challenges, and consistently deliver high-quality results.

## **EDUCATION**

---

**BE Mechanical Engineering** | SSM IET | Dindigul | 2019 - 2023

**Front-End Development** | AIS Education center | Madurai | May - Nov 2023

**MERN Stack | Next JS** | Independent Study | 2024 - 2025

## **DECLARATION**

---

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
